## Summer 2011

France was a great success for everyone involved. The children had a range of wonderful experiences whilst out there. These experiences included visiting a castle, boating on a lake and buying fresh food for the local markets, using their best French to communicate. The children all thrived, using the swimming pool daily and sharing rooms with their friends. Well done year 6 for making it such an enjoyable school journey!

Here we are enjoying a picnic in the shade from the glorious sun!

Ship Ahoy!

We had a fantastic six weeks of sailing. Lots of the children got to sail on their own and enjoyed the experience of controlling the boat on the water. Some of us have developed our skills to a level which has inspired us to use the club, with our families, at the weekend. A particular highlight was having the unique opportunity to go on the canoes.

The horses enjoyed being cared for.

Here comes lunch!

Other wonderful activities we have been doing include rock climbing, swimming and pony care. Also this year we harvested a bumper crop from the allotment: leeks, salad leaves, broad beans and rhubarb. The school appreciated the delicious meals Anoushka made from our produce.
